

# Calibration Level Confirmation

7482 W Lemhi St.  
Boise, ID 83709

Dear Customer:

Please read the following descriptions and mark the category that best fits your needs. We will maintain this information in our database, thereby avoiding the need to confirm your requirements each time calibrations are needed. BCS defines calibration as a comparison of your unit to standards of known values maintained by BCS. It does not necessarily include adjustment. Many calibration procedures do not include adjustments. Adjustment procedures are the responsibility of the customer.
